PROFESSIONAL SUMMARY

Versatile fullstack developer with a strong foundation in **JavaScript** and expertise in the **React, Next.js and React Native ecosystem**. With over **3 years of experience**, I design and **build web and mobile solutions** from MVP to production, working across the full development lifecycle. Committed to software quality, performance and user experience, I contribute to building reliable, scalable products centered on business needs.

PROFESSIONAL EXPERIENCE

Web Project Lead – Agro4Life | Abidjan, May 2025 – January 2026.

- Development of a complete e-commerce marketplace with Next.js and Supabase.
- Full ownership from frontend design and architecture to database and deployment.

Frontend Developer – E2L | Abidjan, October 2023 – February 2025.

- Mobile development (React Native) for the "Tontine Plus" application.
- Integration of responsive web interfaces (React, Tailwind) for the "Goblo" platform.

Freelance Fullstack Developer | Remote, January 2024 – Present.

- Design and development of custom web and mobile solutions.
- Built applications with React, Next.js, React Native, TypeScript, Node.js and Supabase.
- Database design, APIs, authentication systems and business features.
- Delivered client projects in SaaS, e-commerce and business application domains.

TECHNICAL SKILLS
